## Give Amazing Presentations

**in just 2 days**

**Learn techniques that will increase the impact of your presentations 10 fold!**

*Most presentations are designed completely contrary to how the human brain absorbs and learns information.*

*Most presenters create a bunch of slides with text-based bullet points and rely on those slides to do the presenting for them...but not you!*

**The Power Presentations Boot Camp**

*Presented by*

# Power Presentations Boot Camp

- Do you feel like your presentations are boring?
- Do you struggle with ideas to keep your audience engaged?
- Do you need to rely on notes for your delivery?
- Do you feel uncomfortable or unnatural when presenting?
- Do you use boring bullet points like everyone else?

**When do you think might be a good time to change all of this?**

## **The Power Presentations Boot Camp will help you:**

- Capture and hold your audience's attention
- Become more dynamic and persuasive than ever before
- Develop and present a presentation that aligns with how the human brain absorbs, retains and recalls information
- Increase the long-term impact of your presentation
- Increase the entertainment value of your presentation
- Design visuals that ENHANCE your presentation
- Develop platform skills that will make you stand out as a polished and professional presenter

You will come prepared to give a presentation about your business which will be video recorded. Then, we'll dissect your presentation and rebuild it from the ground up using advanced presentation techniques, slide design principles and platform skills.

As you rebuild your presentation, you will practice presenting each stage of the presentation while being coached by the trainer and receiving feedback from your fellow participants.

On the final day you will present the new version of your presentation which will be video recorded, and you will receive copies of both of your presentations for your future review.

**Only 10 seats available**

**\$997.00**
